Sewer Force Main Break near Huff Creek

Greenville, S.C. (June 24, 2020) –**Renewable Water Resources (ReWa)** has recently experienced a sanitary sewer overflow due to a force main break in the vicinity of 125 Griffin Mill Road Piedmont, SC. ReWa’s teams have addressed the spill and repaired the broken section of the pipe. The SC Department of Health and Environmental Control and downstream intakes have been notified.

This event will NOT affect ReWa’s ability to provide sewer service to the area and will also NOT affect the drinking water. We encourage residents to avoid waterways local to the addresses above until water testing has been completed. For additional information, please contact our hotline at 864-299-4004. Any updates will be posted to www.ReWaonline.org.
