# Certificate of <br> Achievement <br> for Excellence <br> in Financial Reporting 

Presented to

# Renewable Water Resources South Carolina 

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended

## June 30, 2015

Executive Director/CEO

October 28, 2016

To Renewable Water Resources Board of Commissioners, Bondholders and Customers:

The management and staff of Renewable Water Resources (the "Agency" or "ReWa") are pleased to present the Comprehensive Annual Financial Report ("CAFR") for the fiscal year ended June 30, 2016.

The CAFR consists of management's representations concerning the finances of the Agency for the fiscal year ended June 30, 2016. Accordingly, management assumes full responsibility for the accuracy and completeness of the information provided in this report. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the Agency's assets from loss, theft or misuse, and to compile sufficient, reliable information for the preparation of the Agency's financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Since the cost of internal controls should not outweigh the benefits, the Agency's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert to the best of our knowledge and belief that this financial report is complete and reliable in all material respects.

The Agency's Board of Commissioners (the "Commission") requires an annual audit by an independent firm of certified public accountants. Cherry Bekaert LLP performed this function and conducted the engagement in accordance with auditing standards generally accepted in the United

States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Cherry Bekaert LLP concluded, based upon the audit, there was a reasonable basis for rendering an unmodified opinion on the Agency's financial statements for the fiscal year ended June 30, 2016.

Management's Discussion and Analysis ("MD\&A"), as required by GAAP, serves as an introduction to the basic financial statements. This letter of transmittal is designed to complement MD\&A and should be read in conjunction with it. The Agency's MD\&A can be found in the financial section of this report.

## PROFILE OF THE AGENCY

The Agency is a special purpose district originally created in 1925 under the name of the "Greater Greenville Sewer District" by Act No. 362 of the Acts of the General Assembly of the State of South Carolina. As originally constituted, Act No. 362 provided for the Greater Greenville Sewer District to be governed by a commission known as the "Greater Greenville Sewer District Commission." In 1926, by Act No. 784, the Commission of the Greater Greenville Sewer District was empowered "to establish, extend, enlarge, maintain, conduct and operate sewer systems, sewer lines and sewer mains; to make any and all regulations which they consider necessary to effectuate this Act; and generally to do all things necessary to create and maintain a sewerage system in the District." The name, Greater Greenville Sewer District, was changed to Western Carolina Regional Sewer Authority by Act No. 393 of 1974, and was subsequently changed to Renewable Water Resources by Act No. 102 of 2009. In 2010, by Act No. 311, the Agency’s authority was expanded to use, market and set rates related to the generation of goods and energy derived from by-products of the treatment process and alternate sources. The Agency's activities are accounted for as an enterprise fund, and costs are recovered through user fees.

The Agency is the largest wastewater treatment provider in the region, serving much of Greenville County and portions of Anderson, Laurens, Pickens and Spartanburg Counties - commonly referred
to as the Upstate. The Saluda River, Reedy River and Enoree River basins are the three drainage basins in the Agency's service area. Wastewater within the region is collected from 18 public partners that construct and maintain approximately 2,000 miles of sewer collection lines. These collection lines connect into the Agency's 343 mile interceptor system. The Agency owns and operates eight water resource recovery facilities ("WRRF") which treat an average flow of 44 million gallons per day.

A nine-member Commission governs the Agency. The Governor, upon recommendation of the respective county legislative delegation, appoints each member of the Commission to a four-year term. Seven members are residents of Greenville County, whereas the remaining two are required to live in Anderson and Laurens Counties, respectively.

The Agency is dedicated to enhancing the quality of life and economic growth in its service area by providing high quality wastewater treatment services. In addition to providing wastewater treatment services, the Agency is focused on long-term sustainability strategies such as generating renewable products from methane gas and biosolids, which are by-products of the treatment process.

## FACTORS AFFECTING FINANCIAL CONDITION

The information presented in this report is most meaningful when it is considered in relation to the economic and social environment in which the Agency operates.

## Regional Economy

The City of Greenville is centrally located within Greenville County and is in the largest metropolitan statistical area in South Carolina. Greenville County is strategically located on the I-85 corridor between Atlanta and Charlotte. Greenville has become an established coordination center for east coast transportation, offering multiple transportation options with convenient access to air, interstate and railways. The region continues to improve and expand transportation options.

In 2013, Greenville established an inland port connecting the region to the Port of Charleston. This inland port recently announced plans to expand in 2017. Further, WINGSPAN, a $\$ 125$ million investment in the Greenville Spartanburg International Airport, is nearing completion and will increase capacity and improve efficiency.

For many years now, Greenville has generated national recognition and accumulated accolades. In 2016, U.S. News and World Report selected Greenville as one of the Best Places to Live, and James Fallow of The Atlantic highlighted Greenville as a success story in the article "Eleven Signs a City will Succeed". Travel + Leisure, Fodor's, and others focused on Greenville as a travel destination citing an alluring Main Street lined with boutiques, foodie restaurants, art galleries, acclaimed theatres and a baseball stadium.

Greenville is known to have a progressive local government, which has formed partnerships with companies and universities to promote economic development. One of the most prominent partnerships is Clemson University’s International Center of Automotive Research ("CU-ICAR"), the result of a combined effort among BMW, Michelin North America, the City of Greenville, the State of South Carolina and others. The $\$ 250$ million investment in the 250 acre advancedtechnology campus, located within the city limits of Greenville, was designed to bridge the gaps between research, technology and commercial application. CU-ICAR is composed of five technology neighborhoods, each designed uniquely for optimizing an innovative and collaborative environment. Additionally, the South Carolina Technology and Aviation Center ("SCTAC"), a 2,600 acre campus jointly owned by the City of Greenville and Greenville County, boasts tenants such as 3M, Cytec Carbon Fibers, Lockheed Martin, Michelin and Stevens Aviation.

Greenville is committed to strategic planning and is regarded as an innovative and entrepreneurial leader in South Carolina. Companies continue to be attracted to Greenville’s pro-business attitude, location and workforce quality. In fact, Greenville has earned the reputation as one of the top metropolitan areas in the world for engineering talent per capita. Further, Greenville has more foreign investment per capita than any other region in the United States. During fiscal year 2016,
the Greenville Area Development Corporation announced twenty-four expansions and/or relocations, representing an estimated investment of $\$ 319.5$ million and creating more than 1,500 jobs.

As of June 2016, Greenville County’s unemployment rate, not seasonally adjusted, was $4.9 \%$. Greenville's unemployment rate remains lower than South Carolina's overall rate of $5.6 \%$, which can be attributed to Greenville’s economic development strategy.

## Industry

The Agency has slightly more than 100 industrial customers that it bills directly and classifies as either significant industrial users or low-volume dischargers. An industry is classified as a significant industrial user by meeting one of the following criteria:

- Is subject to National Categorical Treatment Standards
- Discharges a minimum average of 25,000 gallons per day of process wastewater to the Public Owned Treatment Works ("POTW")
- Discharges five percent or more of any design or treatment capacity of the POTW
- Is found by the Agency, the South Carolina Department of Health \& Environmental Control, or the U.S. Environmental Protection Agency to have a reasonable potential for adversely affecting, either singly or in combination with other discharges, the wastewater disposal system, the quality of sludge, the system's effluent quality, the receiving stream, or air emissions generated by the system

Currently, the Agency has 74 industries classified as significant industrial users. All significant industrial users must obtain a permit to discharge to the POTW. Significant industrial users pay fixed-base fees, volume charges, and surcharges for industrial biological oxygen demand and total suspended solid discharges. Conversely, a low-volume discharger is a regulated industry that does not meet any of the previously mentioned criteria.

Listed below are the Agency's largest industrial customers by revenue generation.

## Ten Largest Industrial Accounts in 2016

| Industry | Revenue | Percentage of total operating revenues |
| :---: | :---: | :---: |
| House of Raeford | \$1,645,027 | 1.86\% |
| Poultry processing |  |  |
| Cytec Carbon Fibers, LLC | 382,703 | 0.43\% |
| Carbon fiber and graphite manufacturer |  |  |
| Furman University | 324,614 | 0.37\% |
| Higher education |  |  |
| Cryovac Sealed Air Corporation | 319,001 | 0.36\% |
| Food packaging services |  |  |
| Michelin North America, Inc. | 305,794 | 0.35\% |
| Tire manufacturer |  |  |
| General Electric Company | 284,993 | 0.32\% |
| Gas turbine manufacturing |  |  |
| C.F. Sauer Company | 257,274 | 0.29\% |
| Condiments and seasonings manufacturer |  |  |
| Kemet Electronic Components | 240,881 | 0.27\% |
| Electronic capacitor manufacturer |  |  |
| Roy Metal \& Finishing Company | 238,354 | 0.27\% |
| Electroplating |  |  |
| BASF Corporation | 228,299 | 0.26\% |
| Chemical manufacturer |  |  |

## Long-Term Financial Planning

The Agency performs long-range planning, such as the 20 -year strategic plan (the "Upstate Roundtable Plan"), which was adopted in 2009 and built upon the original 1994 plan. In addition, the Agency maintains a rolling five-year capital improvement program. The development of this program involves evaluating the recommendations identified in the Upstate Roundtable Plan to current growth projections and regulatory requirements, as well as project affordability. A rate study is currently underway which will identify the funding sources for the capital improvement program while considering the targets identified in the Agency's financial policies for investing, cash management and debt management.

## Accountability and Transparency

The Agency's website, www.rewaonline.org, is utilized to publish both financial and non-financial information to enhance the public's understanding and promote interest. The site serves to disseminate information in a timely and effective manner and includes a description of the wastewater treatment process, approved rates, procurement and employment opportunities, new customer information, Annual Reports, Sewer Use Regulation and upcoming events. The website also includes links to the Upstate Roundtable Plan and the Agency's community outreach initiatives such as Project Rx: A River Remedy and Be Freshwater Friendly. The Agency uses the website and local newspapers to communicate public comment and hearing notifications, as well as Commission meeting agendas. The Agency strives to be transparent and accountable both operationally and fiscally.

## Budget

The Agency's Commission annually adopts an operating and capital budget prior to the new fiscal year. The budget provides the basis for reporting, which management uses to monitor and control the Agencies spending. Management receives budget to actual reports monthly and is responsible for providing variance explanations to the Accounting Department.

The Commission approves the budget after a public hearing and upon recommendation of the Executive Director. The approved budget will remain in effect for the entire fiscal year and can only be revised with a public hearing and Commission approval.

The Agency changed its fiscal year end from June $30^{\text {th }}$ to December $31^{\text {st }}$, effective July 1, 2016. Audited financial statements for the six-month period ending December 31, 2016 will be published on or before July 31, 2017.

## Major Initiatives

Shortly after Graham W. Rich joined the Agency, as Executive Director, in January 2016 a strategic planning initiative was launched. The first step of the planning initiative was to realign the

Agency's mission with its purpose: "To enhance our community's quality of life by transforming wastewater into renewable resources through responsible and innovative solutions." The next step was to define the Agency's vision: "Through the passion of our workforce, ReWa will be a community partner and industry leader safeguarding our environment for future generations." During planning, it became evident that to be successful in fulfilling its mission and vision, ReWa would need to engage employees who embodied the following core values: Professionalism, Unity, Integrity and Trust, Safety, Accountability, and Dedication. Together the Agency's mission and vision will provide the foundation for the development of the next five-year capital improvement program and will guide the Agency for years to come.

## ACCOMPLISHMENTS

## Organizational Awards

Six of the Agency's facilities and several departments won the South Carolina Chamber of Commerce Safety Award. The South Carolina Chamber of Commerce recognizes companies achieving a commendable lost workday case rate.

Six of the Agency's facilities won the South Carolina Department of Health \& Environmental Control’s Facility Excellence Award which recognizes facilities that are striving to meet or exceed expectations in environmental protection.

Seven of the Agency's facilities received Peak Performance Awards from the National Association of Clean Water Agencies ("NACWA"). NACWA recognizes member agencies for excellence in wastewater treatment as measured by their compliance with their National Pollutant Discharge Elimination System ("NPDES") permit.

The Roper Mountain Science Center Association and Greenville County Schools recognized the Agency with the Spirt of Einstein award. The award goes to people and organizations that, like

Einstein, embody a spirit of creativity and imagination, demonstrate innovative achievement and encourage the study of math and science.

## Financial Awards

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the Agency for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This was the $23^{\text {rd }}$ consecutive year that the Agency has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily-readable and efficiently-organized comprehensive annual financial report. This report must satisfy both GAAP and applicable legal requirements. Receipt of this award represents the highest form of recognition in the area of governmental accounting and financial reporting.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Agency was also awarded the GFOA's prestigious Award for Outstanding Achievement in Popular Annual Financial Reporting for the $18^{\text {th }}$ consecutive year. We believe that our current Annual Report to the Community continues to meet the award requirements and we are submitting it to the GFOA for evaluation.

## ACKNOWLEDGEMENTS

This report could not have been prepared without the dedicated and professional effort of the Agency's Accounting Department along with the cooperation of staff from the Agency's other departments.

# Renewable Water Resources <br> Financial Statements and Supplemental Information 

Years Ended June 30, 2016 and 2015

# Report of Independent Auditor 

To the Board of Commissioners
Greenville, South Carolina

## Report on the Financial Statements

We have audited the accompanying statements of net position of Renewable Water Resources (the "Agency") as of June 30, 2016 and 2015, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Agency, as of June 30, 2016 and 2015, and the results of its operations and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 13 and the required supplementary information schedules on pages 45 through 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Agency's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 2, 2016 on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Agency's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

## Renewable Water Resources Management's Discussion and Analysis

As management of Renewable Water Resources (the "Agency"), we present this narrative overview and analysis of financial performance for the fiscal years ended June 30, 2016 and 2015. Please consider this information in conjunction with the financial statements and related notes, which follow this section.

## Financial Highlights

- The Agency's financial position continues to be strong. Net assets increased $\$ 21.4$ million or $7.6 \%$, to $\$ 304.7$ million as a result of current year operations.
- Total revenues increased $\$ 4.2$ million or $4.9 \%$ to $\$ 89.2$ million in fiscal year 2016. The increase of $\$ 2.9$ million in domestic and commercial revenue is primarily attributable to customer growth of $1.8 \%$. New account fees increased $10.8 \%$ or $\$ 0.8$ million to $\$ 8.2$ million in fiscal year 2016 due to continued growth and development.
- Operating expenses before depreciation decreased $\$ 2.1$ million or $5.9 \%$ to $\$ 33.3$ million. The decrease is largely attributable to the completion of the Agency's polychlorinated biphenyls ("PCB") remediation efforts. This decrease was offset by increases in general insurance, legal and employee related expenses.
- Total outstanding debt, excluding premiums, decreased $\$ 17.4$ million or $7.5 \%$ to $\$ 215.1$ million due to the issuance of the Series 2015A refunding revenue bonds which refunded a portion of the Series 2010A revenue bonds, as well as planned debt service.
- During fiscal year 2016, the South Carolina Water Quality Revolving Fund Authority agreed to amend the four existing state revolving loan agreements so that the loans are now on parity with the bonds issued under the 2010 Bond Resolution, which is subordinate to bonds issued under the 1990 Bond Resolution, thereby reducing Senior Lien Debt by $\$ 35.4$ million as of June 30, 2016.

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements of the Agency. The basic financial statements include the Statements of Net Position; the Statements of Revenues, Expenses and Changes in Net Position and the Statements of Cash Flows; with the related notes to provide additional details. These basic financial statements provide information about the activities and performance of the Agency using accounting methods similar to those found in the private sector. The Statements of Net Position present information on the Agency's assets, plus deferred outflows of resources, less liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the Agency's financial position is improving or deteriorating.

The Statements of Revenues, Expenses and Changes in Net Position present the current and prior fiscal years' results of operations and can be used to determine whether the Agency is recovering costs through user fees and charges.

## Overview of the Financial Statements, continued

The Statements of Cash Flows report cash receipts, cash payments and net changes in cash and cash equivalents for the current and prior fiscal years. These statements may be used to determine sources of cash, uses of cash and changes in cash from operating, capital and related financing and investing activities. They may also be useful in assessing the Agency's ability to meet short-term obligations.

The Notes to Financial Statements provide required disclosures and other information essential to a full understanding of information reported in the statements. The notes present information about the Agency's accounting policies, significant account balances and activities, significant risks, obligations, commitments, contingencies and subsequent events, if applicable.

## Net Position

The Agency’s overall financial position improved during fiscal year 2016. Net position in fiscal years 2016, 2015 and 2014 totaled $\$ 304.7$ million, $\$ 283.3$ million and $\$ 290.6$ million, respectively. In fiscal year 2016, net position increased $\$ 21.4$ million or $7.6 \%$ due to current year operations. In fiscal year 2015, net position decreased $\$ 7.3$ million due to the recognition of a $\$ 21.4$ million pension liability as a result of a change in accounting principle. The largest portion of the Agency's net position, approximately $77.7 \%$, reflects the Agency's investment in capital assets (e.g., land, buildings, trunk lines, equipment and vehicles) less any related outstanding debt used to acquire those assets. The Agency uses these capital assets to provide services to ratepayers. Although the Agency's investment in capital assets is reported net of debt, the resources needed to repay this debt must be provided from other sources, as these capital assets cannot be liquidated to pay these liabilities.

An additional \$27.6 million or 9.1\% of the Agency's net position is restricted (restrictions established by debt covenants, enabling legislation or other legal requirements). In fiscal year 2016, restricted net position increased $\$ 0.1$ million or $0.4 \%$. In fiscal year 2015, restricted net position decreased $\$ 0.6$ million or $2.1 \%$. The decrease in fiscal year 2015 is largely due to the maturity of the Series 2005 bonds and corresponding reduction of debt service reserve funds. The third and final component of net position is unrestricted, which may be used to fund day to day operations or capital projects. In fiscal years 2016, 2015 and 2014, the Agency's unrestricted net position totaled $\$ 40.3$ million, $\$ 34.0$ million and $\$ 45.4$ million, respectively.

A summary of the Agency's Statement of Net Position is presented in Table A-1.

## Table A-1 <br> Condensed Statements of Net Position (in millions) June 30,

| Total net position | \$ | 304.7 | \$ | 283.3 | \$ | 290.6 |

## Revenues

Table A-2 shows that the Agency's total revenues increased $\$ 4.2$ million or $4.9 \%$ to $\$ 89.2$ million and $\$ 6.7$ million or $8.6 \%$ to $\$ 85.0$ million in fiscal years 2016 and 2015, respectively. The Agency’s regulations provide for a sewer use charge that funds the operation of the system, provides a source of funds to repay liabilities and provides for future maintenance of the Agency's assets. The current user fee regulation in effect for fiscal year 2016 was adopted December 6, 2010, and became effective March 1, 2015.

In fiscal year 2016, domestic and commercial revenue increased $\$ 2.9$ million or $4.2 \%$ to $\$ 72.0$ million which is primarily due to customer growth. Domestic and commercial revenue increased $\$ 4.4$ million or $6.8 \%$ in fiscal year 2015. The increase in fiscal year 2015 is a result of an approximate $4.0 \%$ rate increase, $2.0 \%$ customer growth and increased consumption.

Industrial revenue increased $\$ 0.2$ million or $2.7 \%$ to $\$ 7.6$ million in fiscal year 2016. In fiscal year 2015, industrial revenue increased $\$ 0.5$ million to $\$ 7.4$ million. In fiscal year 2016, the increase is attributable to an increase in consumption. The increase in fiscal year 2015 is primarily attributable to an approximate $4.0 \%$ volume and base rate increase, as well as an increase in surcharge fees.

## Revenues, continued

New account fees, based on water meter size, increased $10.8 \%$ or $\$ 0.8$ million to $\$ 8.2$ million in fiscal year 2016 and totaled $\$ 7.4$ million and $\$ 5.5$ million in fiscal years 2015 and 2014, respectively.

Interest, amortization and other nonoperating revenues increased $\$ 0.3$ million or $60.0 \%$ in fiscal year 2016 which is primarily due to increases in the investment portfolio. Interest, amortization and other nonoperating revenues decreased slightly in fiscal year 2015 to $\$ 0.5$ million from $\$ 0.6$ million in fiscal year 2014.

Table A-2
Condensed Statements of Revenues, Expenses and Changes in Net Position (in millions) For the Years Ended June 30,

| Total net position, end of year | \$ | 304.7 | \$ | 283.3 | \$ | 290.6 |

## Capital Contributions

Project reimbursement occurs when the Agency enters into a contract with one or more entities to construct facilities and/or sewer conveyance systems that will be mutually beneficial. In fiscal year 2016, capital contributions totaled $\$ 0.02$ million. There were no participating entities in fiscal years 2015 and 2014.

## Expenses

Total expenses in fiscal years 2016, 2015 and 2014 totaled $\$ 67.8$ million, $\$ 70.9$ million and $\$ 71.6$ million, respectively. In fiscal year 2016, operating expenses before depreciation decreased $\$ 2.1$ million or $5.9 \%$ to $\$ 33.3$ million. The decrease in operating expenses in fiscal year 2016 is largely attributable to the completion of PCB remediation efforts. These savings were offset by increases in legal, general insurance and employee related expenses. Further, in fiscal year 2016, interest, amortization and other nonoperating expenses decreased $\$ 1.0$ million.

Operating expenses before depreciation increased $\$ 0.2$ million or $0.6 \%$ to $\$ 35.4$ million in fiscal year 2015. In fiscal years 2015 and 2014, the Agency spent $\$ 4.4$ million and $\$ 4.6$ million, respectively, to remediate PCB at three facilities. In fiscal year 2015, the Agency experienced increases in electricity, billing expense and employee related expenses such as pension and other postemployment benefits. Depreciation decreased $\$ 0.3$ million to $\$ 26.3$ million in fiscal year 2015. Additionally in fiscal year 2015, interest, amortization and other nonoperating expenses decreased by $\$ 0.6$ million primarily due to a reduction in interest expense.

Non-project expenses, which are included in interest, amortization and other nonoperating expenses, can vary considerably from year to year. These expenses are one-time costs that are nonoperational and are not capitalizable.

## Capital Assets

In fiscal year 2016, capital assets being depreciated, net decreased $\$ 13.0$ million or $2.9 \%$ to $\$ 439.5$ million. In fiscal year 2015, capital assets being depreciated, net decreased $\$ 15.6$ million or $3.3 \%$ to $\$ 452.5$ million from $\$ 468.1$ million in fiscal year 2014. In fiscal years 2016 and 2015, the decrease resulted from retirements exceeding additions. At the end of fiscal year 2016, the Agency had invested $\$ 460.3$ million in infrastructure, which includes land, rights-of-way, trunk lines, buildings, operating equipment, water resource recovery facilities ("WRRF") equipment and vehicles as shown in Table A-3 and in Note 5 of the accompanying notes to financial statements.

## Capital improvement program

The Agency's Commission assembled a community-wide volunteer collaboration to develop an environmentally sound long-term strategy for the Agency. The collaboration was named the Upstate Roundtable and was tasked with aligning the regional wastewater system capacity and infrastructure with projected growth, while promoting environmental sustainability. Initially convened in 1994 and reconvened in 2008, this strategic planning group brought together over 60 community, governmental and industry leaders to develop a 20 -year plan to guide the Agency. The 1994 Upstate Roundtable Plan identified needs of approximately $\$ 326.5$ million for growth in the Reedy, Saluda and Enoree basins. In fiscal year 2013, all projects that were identified in this plan were completed. The 2008 Upstate Roundtable Plan identified numerous projects which have been incorporated into the Agency’s capital improvement program ("CIP").

## Capital Assets, continued

## Capital improvement program, continued

The Agency maintains a fluid five-year CIP that merges the Agency's strategic plan with the ongoing objective of maintaining compliance with South Carolina Department of Health \& Environmental Control regulations and National Pollutant Discharge Elimination System permit limitations. The CIP calls for multiple replacement and improvement projects at the Agency's WRRF and numerous conveyance system projects including a 1.5 mile gravity sewer tunnel located approximately 100 feet below ground.

## Capital improvement projects

Fiscal year 2016 capital projects focused on various conveyance system improvements and facility upgrade projects. During fiscal year 2016, $\$ 1.4$ million was invested to update basin plans and create models which will enable the Agency to prioritize capital projects in the future. Another $\$ 9.5$ million was injected to improve the Agency's conveyance system; these projects encompassed collection lines, as well as pump stations. Additionally, $\$ 8.1$ million was invested in multiple facility improvement projects spanning all three river basins and $\$ 2.6$ million was spent to decommission WRRF.

Table A-4 illustrates the Agency’s 2017 Capital Budget of $\$ 56.8$ million for potential spending on facility enhancements, design and construction of a new laboratory building, basin plans and conveyance system improvements. The Agency believes the budget requirement for the upcoming fiscal year will be funded through a combination of reserves, bonds and South Carolina revolving loan funds.

Table A-4
Fiscal Year 2017 Capital Budget (in millions)

FUNDING SOURCES

| South Carolina revolving loan fund | $\$$23.3 <br> Reserves and bonds | 33.5 |

| Water resource recovery facilities | $\$$ | 16.4 |
| :--- | ---: | ---: |
| Conveyance system |  | 24.6 |
| Sustainability and reuse | 1.3 |  |
| Other projects | 14.5 |  |
| $\quad$ Total uses | $\$$ | 56.8 |

## Long-Term Liabilities

At June 30, 2016 and 2015, the total liability for compensated absences was $\$ 0.7$ million.
The total obligation for other postemployment benefits increased $\$ 0.8$ million in fiscal years 2016 and 2015 to $\$ 4.9$ million and $\$ 4.1$ million, respectively.

The Agency's net pension liability totaled $\$ 23.4$ million and $\$ 21.8$ million in fiscal years 2016 and 2015, respectively.

Long-term debt for the Agency consists of outstanding balances on revenue bonds and state revolving loans with the South Carolina Water Quality Revolving Fund Authority.

## Revenue bonds

As of June 30, 2016, revenue bond debt, including premiums, totaled $\$ 191.0$ million; the long-term portion of which was $\$ 171.6$ million. At the end of fiscal year 2016, the Agency's revenue bond debt consisted of six series of revenue and refunding revenue bonds: Series 2005B, Series 2009, Series 2010A, Series 2010B, Series 2012 and Series 2015A. Revenue bond debt totaled $\$ 208.3$ million at the end of fiscal year 2015.

The Agency received bond premiums of $\$ 7.6$ million, $\$ 6.1$ million and $\$ 11.4$ million on the Series 2005B, Series 2010A and Series 2012 revenue bonds, respectively. The bond premiums are amortized over the life of the bonds. The Series 2005B and Series 2009 bonds are payable from gross revenues and collectively referred to as the Senior Lien Debt. The Series 2010A, Series 2010B, Series 2012 and Series 2015A bonds were issued under the 2010 Bond Resolution and are now on parity with all of the Agency's state revolving loans, as mentioned in the financial highlights. These obligations are collectively referred to as the Junior Lien Debt and are subordinate in all aspects to the Senior Lien Debt.

The Series 2005B revenue bonds carry 'Aa2' and 'AA+' ratings from Moody’s Investors Service and Standard \& Poor's, respectively. The Series 2005B ratings were enhanced through the purchase of a surety agreement at issuance and carry the rating of the surety provider or the underlying rating of the Agency, whichever is higher. The Series 2009, Series 2010A, Series 2010B and Series 2015A bonds were issued based on the Agency’s underlying rating. In fiscal year 2015, Standard \& Poor's raised the Agency's Senior Lien Debt rating to 'AA+' and simultaneously affirmed its 'AA' rating to The Agency's Junior Lien Debt. Also in fiscal year 2015, Moody’s Investors Service affirmed its 'Aa2’ rating on the Agency’s Senior Lien Debt, affirmed its 'Aa3' rating on the Agency’s Junior Lien Debt.

## State revolving loans

Since December 1989, the Agency has entered into numerous loan agreements with the South Carolina Water Quality Revolving Fund Authority for new construction and/or upgrades. Interest rates on these loans range from $1.8 \%$ to $2.3 \%$. State revolving loans outstanding as of June 30, 2016 totaled $\$ 35.4$ million.

## Long-Term Liabilities, continued

## State revolving loans, continued

Listed below are the Agency's state revolving loans outstanding at June 30, 2016:

- June 2005
- November 2006
- December 2009
- December 2009

Lower Reedy WRRF Expansion Phase II
Durbin Creek WRRF Expansion
Gravity Sewer and Manhole Rehabilitation Phase I
Gravity Sewer and Manhole Rehabilitation Phase II

Construction has been completed and all funds received for the projects listed above.
During fiscal year 2016, the Agency entered into two loan agreements with South Carolina Water Quality Revolving Fund Authority totaling approximately $\$ 19.3$ million. As of June 30, 2016, no draws have taken place on either loan.

## Total outstanding long-term debt

At June 30, 2016, the Agency owed $\$ 215.1$ million (excluding premiums) in total long-term debt, a decrease of $\$ 17.4$ million or $7.5 \%$ from $\$ 232.5$ million at the end of fiscal year 2015.

The Agency's bond covenants require net earnings (as defined in respective loan agreements) to be at least $110 \%$ of the combined annual principal and interest requirement (as defined in the respective loan agreements) in the fiscal year. The Agency has not defaulted in the payment of principal or interest or in any other material way with respect to any of its securities at any time, nor has the Agency used the proceeds of any bonds for current operating expenses at any time, nor does the Agency intend to use the proceeds of any bonds for any such purposes. Based on the Agency's accompanying financial statements, the debt coverage ratio is calculated in Table A-5.

## Table A-5 <br> Debt Coverage (in millions) For the Years Ended June 30,

|  | 2016 |  | 2015 |  | 2014 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Operating revenue | \$ | 88.4 | \$ | 84.5 | \$ | 77.8 |
| Investment revenue, unrestricted |  | 0.7 |  | 0.4 |  | 0.5 |
| Gross revenues |  | 89.1 |  | 84.9 |  | 78.3 |
| Less: operating expenses before depreciation |  | 33.3 |  | 35.4 |  | 35.2 |
| Net revenues available for debt service | \$ | 55.8 | \$ | 49.5 | \$ | 43.1 |
| Debt service | \$ | 28.7 | \$ | 28.8 | \$ | 28.8 |
| Debt coverage |  | 194\% |  | 172\% |  | 150\% |

In fiscal year 2016, debt service payments decreased $\$ 0.1$ million or $0.3 \%$ to $\$ 28.7$ million. Debt service payments remained level at $\$ 28.8$ million in fiscal years 2015 and 2014. Debt structure on revenue bonds varies year to year causing principal payments to increase and decrease over the life of the bonds.

## Total outstanding long-term debt, continued

Table A-6 shows the average coupon/rate by issue.
Table A-6
Average Coupon/Interest Rate

|  | Balance <br> (without <br> premiums) <br> (in millions) |  | Average <br> coupon/rate |
| :--- | :---: | :---: | :---: | :---: |
|  | $\$$ | 41.2 | $4.0 \%$ |
| Series 2005B refunding bonds | 16.8 | 3.8 |  |
| Series 2009 revenue bonds | 25.5 | 3.4 |  |
| Series 2010A refunding bonds | 12.9 | 2.7 |  |
| Series 2010B revenue bonds | 70.0 | 2.9 |  |
| Series 2012 refunding bonds | 13.3 | 2.0 |  |
| Series 2015A refunding bonds | 35.4 | 2.1 |  |

## General obligation bonds limitation on debt

Under the debt limitation provisions of Article X of the South Carolina Constitution, every county, incorporated municipality, special purpose district and school district has the power, in such manner and upon such terms and conditions as the General Assembly shall prescribe by general law, (a) to incur general obligation debt authorized by a majority vote of the qualified electors thereof voting in a referendum, without limitation as to amount and (b) to incur, without an election, debt, in addition to bonded indebtedness existing on November 30, 1977 and bonded indebtedness authorized by majority vote of qualified electors, in an amount not exceeding $8.0 \%$ of the assessed value of all taxable property therein. As of June 30, 2016, the Agency's assessed value was approximately $\$ 1.8$ billion. The Agency had no general obligation debt outstanding as of June 30, 2016.

More detailed information about the Agency's long-term liabilities is presented in Notes 7, 8 and 9 of the accompanying Notes to the Financial Statements.

## Economic Factors

The Agency is moderately impacted by economic trends. The Agency's operating revenues are derived solely from user fees as the Agency does not receive any tax appropriation. The Agency experienced domestic and commercial customer growth and a continued surge in new account fees during fiscal year 2016.

Current economic conditions, such as the above, are considered by the Agency's Commissioners and Management when developing plans and budgets for the upcoming year.

## Contacting the Agency's Financial Department

This financial report is designed to provide our users and creditors with a general overview of the Agency's finances and to demonstrate the Agency's accountability for funds received. If you have any questions about this report or need additional financial information, please contact Patricia Dennis, Controller, Renewable Water Resources at 561 Mauldin Road, Greenville, South Carolina 29607, 864-299-4000 or patriciad@re-wa.org.

Notes to Financial Statements

# Renewable Water Resources 

Notes to Financial Statements
For the Years Ended June 30, 2016 and 2015

## Note 1 - Summary of Significant Accounting Policies and Activities

## Description of entity

Renewable Water Resources (the "Agency"), previously known as Western Carolina Regional Sewer Authority, is a special purpose district created by the General Assembly of the State of South Carolina. The Agency is governed by a commission consisting of nine members who are appointed by the Governor upon recommendation by the legislative delegations of Greenville, Anderson and Laurens Counties. The Agency provides wastewater treatment services for residents and industries covering substantially all of Greenville County and portions of Anderson, Laurens, Pickens and Spartanburg Counties. In fulfilling its functions, the Agency receives wastewater from the area's collection systems and owns and operates water resource recovery facilities ("WRRF"), pump stations and trunk lines; which are collectively referred to as the "System." It is the Agency's policy to maintain customer user rates sufficient to meet operational and maintenance expenses, as well as to pay debt service on bonds and notes issued to finance upgrading and maintaining the System.

## Reporting entity

This report includes all operations of the Agency for which the Agency's Commissioners are financially accountable.

## Fund accounting

The Agency maintains a single enterprise fund to record its activities which consists of a self-balancing set of accounts. Enterprise funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration.

## Basis of accounting

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting as recommended by the Governmental Accounting Standards Board ("GASB"). Basis of accounting refers to the timing of recognition of revenues and expenses. Under the accrual basis of accounting, revenues and receivables are recognized when earned and expenses and liabilities are recognized when incurred, regardless of the timing of related cash flows.

## Budgetary practices

Annual budgets are prepared by management as a control device and adopted in accordance by South Carolina Code of Laws Section 6-1-80.

## Cash and cash equivalents

For purposes of reporting cash flows, the Agency considers all liquid investments with an original maturity of three months or less to be cash equivalents.

# Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

## Note 1 - Summary of Significant Accounting Policies and Activities, continued

## Investments

Investments are reported at fair value and categorized within the fair value hierarchy established under accounting principles generally accepted in the United States of America ("GAAP"). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Gains or losses that result from market fluctuation are reported in the current period. As of June 30, 2016 and 2015, the Agency's Treasury bills and US agencies investments are valued using significant other observable inputs (Level 2 inputs).

## Restricted assets

Any unexpended bond proceeds issued by the Agency are classified as restricted assets because their use is restricted to the purpose for which the bonds were originally issued. Additionally, certain resources set aside for repayment of debt are classified as restricted assets because their use is limited by applicable bond covenants. Cash and cash equivalents and investments included in the Agency's debt service and debt service reserve accounts are classified as restricted because their use is restricted for security and debt service of the outstanding debt. When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, then unrestricted resources as needed.

## Capital assets

Capital assets are stated at historical cost. The Agency capitalizes purchases of assets greater than $\$ 5,000$. Donated capital assets are recorded at estimated fair value at the date of donation. Depreciation of capital assets is calculated on or using the straight-line method over the estimated useful lives of the respective assets as follows:

$$
\begin{aligned}
& \text { Buildings, trunk lines and WRRF equipment } \\
& \text { Office furniture and operational equipment } \\
& \text { Vehicles }
\end{aligned}
$$

$15-40$ years
$5-8$ years
3 years

Intangible assets consisting of rights-of-way are recorded as capital assets at cost and considered to have an indefinite useful life, therefore, they are not amortized. If changes in factors and conditions result in the useful life of an intangible asset no longer being indefinite, the asset is evaluated for impairment because a change in the expected duration of use of the asset has occurred. The carrying value of the intangible asset, if any, following the recognition of any impairment loss is amortized over the remaining estimated useful life of the asset.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

# Renewable Water Resources 

Notes to Financial Statements
For the Years Ended June 30, 2016 and 2015

## Note 1 - Summary of Significant Accounting Policies and Activities, continued

## Capital assets, continued

The cost of fully depreciated assets and the related accumulated depreciation amounts are eliminated from the accounts whether the assets are retired or continue in service.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

The Agency has granted a statutory lien on the System to secure its revenue bonds and state revolving loans.

## Net position

Net position is classified into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

- Net investment in capital assets - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Instead that portion of the debt is included in the same net position component as the unspent proceeds.
- Restricted - This component of net position consists of constraints placed on an assets’ use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted - This component consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

## Long-term obligations

Long-term debt and other obligations financed by the Agency are reported as liabilities on the Statements of Net Position. Bond premiums and discounts are amortized over the life of the bonds using methods which approximate the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed as incurred.

# Renewable Water Resources 

Notes to Financial Statements

For the Years Ended June 30, 2016 and 2015

## Note 1 - Summary of Significant Accounting Policies and Activities, continued

## Deferred outflows/inflows of resources

In addition to assets, the Statements of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial element, deferred outflows of resources, represents consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Agency's deferred loss on refunding, as well as deferred pension experience and contributions qualify for reporting in this category. A deferred loss on refunding results from the difference in carrying value of the refunded debt and reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Changes in the total pension liability resulting from differences between expected and actual experience with regard to economic and demographic factors are recognized as deferred outflows/inflows of resources related to pension and included in the pension expense over a period to the average expected remaining service lives of all employees that are provided with benefits through the plan. Additionally, contributions to the pension plan made after the plan's measurement date are reported as deferred outflows of resources.

In addition to liabilities, the Statements of Net Position will sometimes report a separate section for deferred inflows of resources. The separate financial element, deferred inflows of resources, represents the acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Agency's deferred inflows from pension consist of differences between projected and actual experience.

## Compensated absences

Vested vacation leave is recorded as an expense and liability as the benefits accrue to employees.

## Revenues and receivables

- Domestic and commercial customers - Revenues and receivables, based on water consumption, are recognized when services are provided.
- Industrial customers - Revenues and receivables, based on metered effluent and surcharges, are recognized when services are provided.
- Allowance for uncollectible accounts - An allowance for uncollectible accounts is estimated based on historic bad debt levels, plus an amount for any specific doubtful accounts.

# Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

## Note 1 - Summary of Significant Accounting Policies and Activities, continued

## Operating revenues and expenses

Operating revenues and expenses generally result from providing services in connection with the Agency's principal ongoing operations. The principal operating revenues of the Agency are charges to customers for wastewater treatment services. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

## Estimates

Preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the Agency's financial position and results of operations and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

## Change in accounting principle

During fiscal year 2015, the Agency adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27 ("Statement No. 68") and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date an amendment of GASB Statement No. 68 ("Statement No. 71 ").

As of July 1, 2014, the deferred outflows of resources, net pension liability and net position were adjusted as follows due to the implementation of these standards:

|  | Deferred outflows from pension |  | Net pension liability |  | Net position |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Beginning balance, July 1, 2014 | \$ | - | \$ | - | \$ 290,648,172 |
| Change in accounting principle |  | 1,218,065 |  | 22,691,919 | $(21,473,854)$ |
| Adjusted balance, July 1, 2014 | \$ | 1,218,065 | \$ | 22,691,919 | \$ 269,174,318 |

## New pronouncements

The Agency has implemented the following GASB pronouncements during fiscal year 2016:
GASB Statement No. 72, Fair Value Measurement and Application, effective for periods beginning after June 15, 2015, addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. The Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. This statement does not have a material impact on the Agency's financial statements.

# Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

## Note 1 - Summary of Significant Accounting Policies and Activities, continued

## New pronouncements, continued

GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, effective for periods beginning after June 15, 2015, reduces the GAAP hierarchy to two categories of authoritative GAAP from the four categories under GASB Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The first category of authoritative GAAP consists of GASB Statements of Governmental Accounting Standards. The second category comprises GASB Technical Bulletins and Implementation Guides, as well as guidance from the AICPA that is cleared by the GASB. This statement does not have a material impact on the Agency's financial statements.

The GASB has issued several statements which have not yet been implemented by the Agency. The following statement may have a future impact on the Agency:

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for periods beginning after June 15, 2017, replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Among other things, GASB Statement No. 75 requires governments to report a liability on the face of the financial statements for the other postemployment benefits ("OPEB") that they provide and requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information about their OPEB liabilities.

## Note 2 - Cash and Cash Equivalents and Investments

As of June 30, 2016 and 2015, the Agency had the following cash and cash equivalents and investments:

|  | Fair value |  |
| :---: | :---: | :---: |
|  | 2016 | 2015 |
| Cash and cash equivalents |  |  |
| Checking and other cash | \$ 24,045,394 | \$ 37,999,249 |
| Money markets - government obligations | 11,215,701 | 11,280,095 |
| Total cash and cash equivalents | \$ 35,261,095 | \$ 49,279,344 |
| Investments |  |  |
| Government sponsored enterprises | \$ 30,270,125 | \$ 12,428,128 |
| Certificates of deposit | 12,324,069 | 9,220,939 |
| US Treasury bills | 7,721,374 | 7,724,077 |
| Total investments | \$ 50,315,568 | \$ 29,373,144 |

## Renewable Water Resources

Notes to Financial Statements
For the Years Ended June 30, 2016 and 2015

## Note 2 - Cash and Cash Equivalents and Investments, continued

Investment maturities are as follows as of June 30, 2016:

| Investment type | Fair value | Investment maturities (in years) |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Less than 1 year |  | 1-5 years | More than 5 years |  |

| Total |  | 29,373,144 | \$ | 8,627,882 | \$ | 19,987,174 | \$ | 758,088 |

## Interest rate risk

The Agency's investment policy requires structuring investment maturities and investment options to manage its exposure to fair value losses arising from increasing interest rates.

# Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

## Note 2 - Cash and Cash Equivalents and Investments, continued

## Credit risk

State law limits investments to obligations of the United States and agencies thereof, general obligations of the State of South Carolina or any of its political units, financial institutions to the extent that the same are secured by Federal Deposit Insurance, and certificates of deposit where the certificates are collaterally secured by securities of the type described above are held by a third party as escrow agent or custodian, of a fair value not less than the amount of the certificates of deposit so secured, including interest. The Agency's investment policy follows state law and requires, at the time of investment, the obligor to have an unsecured credit rating in one of the top two categories. The Agency's investments at June 30, 2016 and 2015 consist of certificates of deposit, US Treasury bills and US agencies notes and bonds. The bills and US agencies notes and bonds were rated AA+ by Standard \& Poor's and/or Aaa by Moody’s Investors Service as of June 30, 2016.

## Concentration of credit risk

The Agency has an investment policy that limits the types of investments the Agency may invest in any one issuer. More than $5.0 \%$ of the Agency's investments are in US Treasury bills. These investments are approximately $15.3 \%$ and $26.3 \%$ of the Agency's total investments at June 30, 2016 and 2015, respectively.

## Custodial credit risk deposits

Custodial credit risk is the risk that in the event of a bank failure, the Agency's deposits may not be returned to it. The Agency has a policy for custodial credit risk. As of June 30, 2016 and 2015, all of the Agency's deposits were insured or collateralized with securities held by the Agency's agents in the Agency's name.

## Note 3 - Receivables

Customer and other accounts receivables as of June 30, 2016 and 2015 were as follows:
Fees and services
Domestic and commercial customers
Industrial customers
Total receivables from fees
Less: allowance for uncollectible accounts
Net receivables from fees
Accrued interest on cash equivalents and other receivables
Reimbursements due from other governmental units
Total receivables
Less: current receivables, net
Noncurrent receivables, net

| 2016 | 2015 |
| :---: | :---: |
| \$ 11,239,254 | \$ 10,825,058 |
| 1,312,848 | 1,362,972 |
| 12,552,102 | 12,188,030 |
| 650,000 | 725,000 |
| 11,902,102 | 11,463,030 |
| 94,417 | 38,084 |
| 2,534,278 | 2,782,303 |
| 14,530,797 | 14,283,417 |
| 12,254,422 | 11,749,142 |
| \$ 2,276,375 | \$ 2,534,275 |

## Renewable Water Resources

Notes to Financial Statements
For the Years Ended June 30, 2016 and 2015

## Note 4 - Restricted Cash and Cash Equivalents and Investments

Provisions of the revenue bond and state revolving loan covenants require the Agency to establish funds and restrict the use of certain cash and cash equivalents and investments. A brief description of such funds follows:

- Capital projects - restricts the use of revenue bond, state revolving loan, real property sales proceeds, and interest earnings on such proceeds, to the construction of capital projects.
- Current principal and interest payments - restricts resources accumulated for the next principal and interest payments.
- Debt service reserves - restricts resources to cover potential future deficiencies in the current principal and interest payments account.
- Operations and maintenance - restricts resources to cover operating and maintenance expenses for one month.
- Capital asset replacement - restricts resources to fund asset replacements.
- Contingencies - restricts resources to meet unexpected contingencies.

Restricted cash and cash equivalents and investments at June 30, 2016 and 2015 are restricted for the following uses:

|  | 2016 | 2015 |
| :---: | :---: | :---: |
| Current principal and interest payments | \$ 11,193,254 | \$ 11,245,989 |
| Debt service reserves | 7,743,821 | 7,726,672 |
| Operations and maintenance | 3,077,221 | 2,869,834 |
| Capital asset replacement | 4,602,950 | 4,620,109 |
| Contingencies | 1,000,000 | 1,000,000 |
| Total restricted assets | \$ 27,617,246 | \$ 27,462,604 |

Restricted assets consisted of the following at June 30:

## Cash

Investments
Total restricted assets

| 2016 | 2015 |
| :---: | :---: |
| \$ 19,895,872 | \$ 19,738,527 |
| 7,721,374 | 7,724,077 |
| \$ 27,617,246 | \$ 27,462,604 |

# Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

Note 5 - Capital Assets
A summary of changes in capital assets from June 30, 2015 to June 30, 2016 follows below:

|  | Balance June 30, 2015 | Additions |  | Disposals |  |  | $\begin{gathered} \text { Balance } \\ \text { June 30, } 2016 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Interest cost in 2016 and 2015 totaled \$8,969,048 and \$10,059,772, respectively, of which \$196,000 and $\$ 145,470$ were capitalized.

## Note 6 - Defeasance Loss

In fiscal year 2016 and in prior years, the Agency defeased outstanding debt through the issuance of new debt with the proceeds deposited in an irrevocable trust to provide for all debt service payments of the old debt. Thus, the defeased debt and the irrevocable trust are not part of the financial statements. Outstanding principal amounts of defeased bonds totaled \$11,535,000 at June 30, 2016.

In October 2015, the Agency issued \$13,465,000 of refunding bonds to defease a portion of the Series 2010A refunding revenue bonds. This refunding transaction provided the Agency with an economic gain of \$450,627.

# Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

## Note 6 - Defeasance Loss, continued

When a difference exists between the reacquisition price and the net carrying amount of the old debt, a deferred loss or gain is recorded and classified in the respective deferred outflow or inflow of resources on the Statements of Net Position. This amount is amortized as a component of interest expense over the remaining life of the old debt or new debt, whichever is shorter. As of June 30, 2016 and 2015, the Agency's defeasance losses, net were as follows:

Defeasance loss, net

$\frac{\mathbf{2 0 1 6}}{\$ 8,564,384} \quad$| $\mathbf{2 0 1 5}$ |
| :--- |

Amortization of the defeasance loss for the years ended June 30, 2016 and 2015 totaled \$987,915 and $\$ 930,268$, respectively.

Estimated future amortization expense is as follows:

| Year ending <br> June 30, |  | Amortization <br> expense |
| :---: | :---: | :---: | :---: |
| 2017 |  | $\$ 1,048,385$ |
| 2018 |  | $1,048,385$ |
| 2019 |  | $1,048,385$ |
| 2020 |  | $1,048,385$ |
| 2021 |  | $1,012,316$ |
| Thereafter |  | $3,358,528$ |
| Total |  | $\$ 8,564,384$ |

## Note 7 - Revenue Bonds Payable

At June 30, 2016 and 2015, the Agency was obligated on various series of revenue bonds issued for purposes of constructing capital assets. Revenue bonds outstanding at June 30, 2016 and 2015 are as follows:

[^0] <br> <br> 283，295，825 $\quad 290,648,172$}
${ }^{11}$ In fiscal year 2010，the Agency restated fiscal year 2009 net position to reflect the cumulative impact of certain unbilled services．For comparative purposes，all other fiscal years presented have been adjusted to reflect this methodology ${ }^{(2)}$ In fiscal year 2014，the Agency adopted GASB Statement No． 65 and restated fiscal years 2013 and 2012 net position to reflect the cumulative impact of the write－off of debt issuance costs previously capitalized．
${ }^{(3)}$ In fiscal year 2015，the Agency adpopted GASB Statement No． 68 ．
${ }^{(3)}$ In fiscal year 2015，the Agency adpopted GASB Statement No． 68.

# Report of Independent Auditor on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards 

To the Board of Commissioners<br>Greenville, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Renewable Water Resources (the "Agency"), which comprise the statements of net position, and the related statements of revenues, expenses and changes in net position and cash flows as of and for the year ended June 30, 2016, and the related notes to financial statements and have issued our report thereon dated September 2, 2016.

## Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

    | 2019 |  | 19,068,000 |  | 6,243,193 |  | 25,311,193 |
    | 2020 |  | 19,698,000 |  | 5,369,331 |  | 25,067,331 |
    | 2021 |  | 20,498,000 |  | 4,432,626 |  | 24,930,626 |
    | 2022-2025 |  | 84,619,000 |  | 9,332,057 |  | 93,951,057 |
    | Total | \$ | 179,744,000 | \$ | 40,242,941 | \$ | 219,986,941 |

    Provisions of the revenue bond agreements require the Agency to maintain user rates sufficient to generate net earnings as defined by the bond agreement of at least $110 \%$ of the combined annual principal and interest payments, make timely payment of principal and interest on all outstanding debt, maintain required funds for debt service reserves, operations and maintenance expenses, capital asset replacement and contingencies and meet various other general requirements specified in the bond agreements. Management believes the Agency was in compliance with these covenants at June 30, 2016 and 2015.

    The Series 2005B and Series 2009 bonds are payable solely from and secured by a pledge of the gross revenues of the Agency.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 7 - Revenue Bonds Payable, continued

    The Series 2010A, Series 2010B, Series 2012 and Series 2015A bonds are secured by a pledge of the gross revenues, net of operations and maintenance expenses, as defined in the 2010 Bond Resolution, which is subordinate to the aforementioned Series 2005B and Series 2009 pledge.

    Interest expense on the revenue bonds totaled \$7,996,996 and \$9,065,668 for the years ended June 30, 2016 and 2015, respectively.

    ## Note 8 - State Revolving Loans Payable

    At June 30, 2016 and 2015, the Agency was obligated on various state revolving loans issued for purposes of constructing capital assets. State revolving loan amounts outstanding at June 30, 2016 and 2015 are as follows:
    \$19,571,443 Lower Reedy Water Resource Recovery Facility expansion phase II loan dated June 10, 2005. Payable in quarterly installments of \$312,731, including interest at 2.3\%, through March 2027.
    \$27,800,000 Durbin Creek Water Resource Recovery Facility upgrade and expansion loan dated November 14, 2006. Payable in quarterly installments of $\$ 438,048$, including interest at $2.3 \%$, through March 2029.
    \$2,850,550 Gravity Sewer and Manhole Rehabilitation Phase I loan dated December 9, 2009. Payable in quarterly installments of \$42,187 including interest at 1.8\%, through November 2030.
    \$2,509,938 Gravity Sewer and Manhole Rehabilitation Phase II loan dated December 9, 2009. Payable in quarterly installments of \$38,755 including interest at 2.2\%, through January 2031.
    Total state revolving loans payable
    Less: current maturities
    Long-term portion

    | 2016 |  | 2015 |  |
    | :---: | :---: | :---: | :---: |

    | \$ | 32,823,679 | \$ | 35,388,896 |

    Interest expense on the state revolving loans totaled $\$ 812,351$ and $\$ 866,734$ for the years ended June 30, 2016 and 2015, respectively.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 8 - State Revolving Loans Payable, continued

    Future amounts required to pay outstanding principal and interest on state revolving loans outstanding at June 30, 2016 are as follows:

    | June 30, | Principal | Interest |  | Total |  |
    | :---: | :---: | :---: | :---: | :---: | :---: |
    | 2017 | \$ 2,565,217 | \$ | 761,664 | \$ | 3,326,881 |
    | 2018 | 2,622,077 |  | 704,804 |  | 3,326,881 |
    | 2019 | 2,680,281 |  | 646,600 |  | 3,326,881 |
    | 2020 | 2,739,862 |  | 587,019 |  | 3,326,881 |
    | 2021 | 2,800,854 |  | 526,027 |  | 3,326,881 |
    | 2022-2026 | 14,970,926 |  | 1,663,481 |  | 16,634,407 |
    | 2027-2031 | 7,009,679 |  | 242,745 |  | 7,252,424 |
    | Total | \$ 35,388,896 | \$ | 5,132,340 |  | 40,521,236 |

    Provisions of the state revolving loan agreements require the Agency to use loan proceeds solely for the purpose of paying eligible project costs, submit the annual audit of its financial statements by December $31^{\text {st }}$, maintain user rates sufficient to make timely payment of principal and interest on all outstanding debt, maintain required funds for current principal and interest payments, operations and maintenance expenses, capital asset replacement and contingencies, review the adequacy of its user rates at least annually, and meet various other general requirements specified in the loan agreements. Management believes the Agency was in compliance with these covenants at June 30, 2016 and 2015.

    During fiscal year 2016, the South Carolina Water Quality Revolving Fund Authority agreed to amend the state revolving loan agreements so that they are now on parity with the bonds issued under the 2010 Bond Resolution which is subordinate to the Series 2005B and Series 2009 pledge. The state revolving loans are secured by a pledge of the gross revenues, net of operations and maintenance expenses, as defined in the 2010 Bond Resolution.

    During fiscal year 2016, the Agency entered into two loan agreements with South Carolina Water Quality Revolving Fund Authority totaling \$19,309,594. As of June 30, 2016, no draws have taken place on either loan.

    ## Note 10 - Construction Contracts in Progress

    At June 30, 2016, the Agency had commitments for various projects for the construction and acquisition of property and equipment. Construction in progress is included in capital assets along with land, buildings, trunk lines and WRRF equipment.

    The following summarizes construction contracts in progress at June 30, 2016 on which significant additional work is to be performed:

    | Project name | Contract amount |  | Total contract incurred |  | Balance to be performed |  |
    | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
    | Administration Building Water Feature | \$ | 614,577 | \$ | 335,932 | \$ | 278,645 |
    | Arc Flash Studies |  | 463,330 |  | 255,258 |  | 208,072 |

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 11 - Compensated Absences

    Full-time employees of the Agency accumulate vacation benefits at 1 to 2 days per month, based on length of service, up to 24 days per year. Annual leave in excess of 24 days at December $31^{\text {st }}$ of each year is forfeited. Annual leave earned up to 24 days is paid to employees upon separation from employment. Accrued vacation benefits totaled $\$ 743,967$ and $\$ 745,913$ at June 30, 2016 and 2015, respectively.

    ## Note 12 - Employee Benefits

    ## Pension plan

    ## Plan description

    Substantially all of the Agency's employees are members of the South Carolina Retirement System (the "SCRS"), a cost-sharing multiple-employer defined benefit pension plan administered by the South Carolina Public Employee Benefit Authority ("PEBA"). The SCRS was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for employees of the state, its public school districts and political subdivisions. Generally, all employees are required to participate in and contribute to the system. Employees with an effective membership date prior to July 1, 2012, are considered a Class Two member, whereas, employees with an effective membership date on or after July 1, 2012, are considered a Class Three member. PEBA issues a Comprehensive Annual Financial Report ("CAFR") containing financial statements and required information for the South Carolina Retirement Systems' Pension Trust Funds. The report is publicly available on the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, Post Office Box 11960, Columbia, South Carolina 29211-1960.

    ## Benefits

    Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service and average final compensation. A brief summary of the benefit terms for SCRS is presented below.

    A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members who participate in the death benefit program.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 12 - Employee Benefits, continued

    ## Benefits, continued

    The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of $1.0 \%$ or $\$ 500$ every July $1^{\text {st }}$. Only those annuitants in receipt of a benefit on July $1^{\text {st }}$ of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July $1^{\text {st }}$ after reaching age 60 or the second July $1^{\text {st }}$ after the date they would have had 28 years of service credit had they not retired.

    ## Contributions

    Contributions are prescribed in Title 9 of the South Carolina Code of Laws. The PEBA Board may increase employer and employee contribution rates based on the actuarial valuations, but any such increase may not result in a differential between the employee and employer contribution rate that exceeds $2.9 \%$ of earnable compensation. An increase in the contribution rates adopted by the PEBA Board may not provide for an increase of more than $0.5 \%$ in any one year. If the scheduled employee and employer contributions provided in statute or the rates last adopted by the PEBA Board are insufficient to maintain a 30 -year amortization schedule of the unfunded liabilities of the plans, the PEBA Board shall increase the contribution rates in equal percentage amounts for the employer and employee as necessary to maintain the 30-year amortization period; and, this increase is not limited to $0.5 \%$ per year.

    Plan members are required to contribute $8.16 \%$ and $8.00 \%$ of their annual covered salary for the years ended June 30, 2016 and 2015, respectively, and the Agency is required to contribute at an actuarially determined rate. The Agency's rate is $10.91 \%$ and $10.75 \%$ of annual covered payroll for the years ended June 30, 2016 and 2015, respectively, and an additional $0.15 \%$ of payroll is contributed to a group life insurance benefit for the participants for each of the years ended June 30, 2016 and 2015.

    All required contributions were made and are summarized as follows:

    | June 30 |  | Employer <br> SCRS |  |  | Employee <br> SCRS |  |
    | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
    | 2016 |  | $\$ 1,339,320$ |  | $\$ 987,421$ |  |  |
    | 2015 |  | $1,262,243$ |  | 926,418 |  |  |
    | 2014 |  | $1,215,138$ |  |  | 859,768 |  |

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 12 - Employee Benefits, continued

    ## Net pension liability

    At June 30, 2016 and 2015, the Agency reported a liability of $\$ 23,423,698$ and $\$ 21,781,344$, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015 and 2014, respectively, based on the July 1, 2014 and 2013 actuarial valuation, respectively, "as adopted by the PEBA Board and Budget and Control Board which utilized membership data as of July 1, 2014 and 2013, respectively. The total pension liability was rolled forward from the valuation date to the plan's fiscal year ended June 30, 2015, using generally accepted actuarial principles." The Agency's proportion of the net pension liability was based on the Agency's normal contributions. At the June 30, 2015 and 2014 measurement date, the Agency's proportionate share was $0.123507 \%$ and $0.126513 \%$, respectively.

    For the years ended June 30, 2016 and 2015, the Agency recognized pension expense of $\$ 1,570,111$ and $\$ 1,526,624$, respectively, and reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

    |  | 2016 |  |  |  | 2015 |  |  |  |
    | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
    |  |  | Deferred tflows of esources | Deferred inflows of resources |  | Deferred outflows of resources |  | Deferred inflows of resources |  |
    | Difference between expected and actual experience | \$ | 416,159 | \$ | 41,889 | \$ | 617,192 | \$ | - |
    | Changes of assumptions |  |  |  | - |  | - |  |  |
    | Net difference between projected and actual earnings on pension plan investments |  | 156,786 |  | - |  | - |  | 1,836,326 |
    | Changes in proportion and differences between Agency's contributions and proportionate share of contributions |  | - |  | 415,703 |  | - |  | - |
    | Agency contributions subsequent to the measurement date |  | 1,339,320 |  | - |  | 1,262,243 |  | - |
    | Total |  | 1,912,265 | \$ | 457,592 | \$ | 1,879,435 | \$ | 1,836,326 |

    At June 30, 2015, the Agency reported $\$ 1,262,243$ as deferred outflows of resources related to pensions resulting from the Agency's contributions subsequent to the measurement dates and was recognized as a reduction of the net pension liability during the year ended June 30, 2016. At June 30, 2016, the Agency reported $\$ 1,339,320$ as deferred outflows of resources related to pensions resulting from the Agency's contributions subsequent to the measurement dates and will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

    | Year ending <br> June 30, |  | Pension <br> expense |  |
    | :---: | :---: | :---: | ---: |
    |  |  | $\$ 17$ | 31,104 |
    | 2018 |  | 31,104 |  |
    | 2019 |  | 174,048 |  |
    | 2020 |  | $(351,609)$ |  |
    | Total |  | $\$$ | $(115,353)$ |

    Notes to Financial Statements
    For the Years Ended June 30, 2016 and 2015

    ## Note 12 - Employee Benefits, continued

    ## Actuarial assumptions

    Measurement of the total net pension liability requires the use of assumptions about numerous future events that affect the benefit payments that will be made to employees in retirement. Amounts determined during the valuation process are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. The last experience study was performed on data through June 30, 2010, and the next experience study through June 30, 2015 is currently underway. The following provides a brief description of the significant actuarial assumptions applied to all periods included in the measurements.

    | Cost method | Entry age |
    | :--- | :--- |
    | Investment rate of return | $7.5 \%$ |
    | Salary increases | $3.5 \%$ to $12.5 \%$ (varies by service) |
    | Inflation | $2.75 \%$ |
    | Benefit adjustments | lesser of $1.0 \%$ or $\$ 500$ annually |

    The post-retiree mortality assumption is dependent upon the member's job category and gender. This assumption includes base rates which are automatically adjusted for future improvement in mortality using published Scale AA projected from the year 2000.

    The long-term expected rate of return on pension plan investments for actuarial purposes is based upon the 30 -year capital market outlook at the end of the fourth quarter 2013. The actuarial long-term expected rates of return represent best estimates of arithmetic real rates of return for each major asset class and were developed in coordination with the investment consultant for the Retirement System Investment Commission ("RSIC") using a building block approach, reflecting observable inflation and interest rate information available in the fixed income markets, as well as Consensus Economic forecasts. The actuarial long-term assumptions for the other asset classes are based on historical results, current market characteristics and professional judgement.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 12 - Employee Benefits, continued

    ## Actuarial assumptions, continued

    The RSIC has exclusive authority to invest and manage the retirement trust funds’ assets. As co-fiduciary of the Systems, statutory provisions and governance policies allow the RSIC to operate in a manner consistent with a long-term investment time horizon. The expected real rates of investment return, along with the expected inflation rate, form the basis for the target asset allocation adopted annually by the RSIC. For actuarial purposes, the $7.5 \%$ assumed annual investment rate of return used in the calculation of the total pension liability includes a $4.75 \%$ real rate of return and a $2.75 \%$ inflation component.

    | Asset class | Target allocation | Expected arithmetic real rate of return | Long-term expected portfolio real rate of return |
    | :---: | :---: | :---: | :---: |
    | Short term - cash | 2.00\% | 1.90\% | 0.04\% |
    | Short term - short duration | 3.00 | 2.00 | 0.06 |
    | Domestic fixed income - core fixed income | 7.00 | 2.70 | 0.19 |
    | Domestic fixed income - mixed credit | 6.00 | 3.80 | 0.23 |
    | Global fixed income - global fixed income | 3.00 | 2.80 | 0.08 |
    | Global fixed income - emerging markets debt | 6.00 | 5.10 | 0.31 |
    | Global public equity | 31.00 | 7.10 | 2.20 |
    | Global tactical asset allocation | 10.00 | 4.90 | 0.49 |
    | Alternatives - hedge funds (low beta) | 8.00 | 4.30 | 0.34 |
    | Alternatives - private debt | 7.00 | 9.90 | 0.69 |
    | Alternatives - private equity | 9.00 | 9.90 | 0.89 |
    | Alternatives - real estate (broad market) | 5.00 | 6.00 | 0.30 |
    | Alternatives - commodities | 3.00 | 5.90 | 0.18 |
    | Total | 100.00\% |  | 6.00\% |
    | Inflation |  |  | 2.75 |
    | Expected arithmetic nominal return |  |  | 8.75 \% |

    ## Discount rate

    The discount rate used to measure the total pension liability was $7.5 \%$ in both actuarial periods. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS will be made based on the actuarially determined rates based on provisions in the South Carolina State Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

    ## Renewable Water Resources

    Notes to Financial Statements
    For the Years Ended June 30, 2016 and 2015

    ## Note 12 - Employee Benefits, continued

    ## Sensitivity of the Agency's proportionate share of the net pension liability to changes in the discount rate

    The following presents the Agency's proportionate share of the net pension liability calculated using the discount rate of $7.5 \%$, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5\%) or one percentage point higher (8.5\%) than the current rate:
    

    ## Pension plan fiduciary net position

    Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the separately issued CAFR containing financial statements and required supplementary information for SCRS. The CAFR is publicly available on the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, Post Office Box 11960, Columbia, South Carolina 29211-1960.

    ## Deferred compensation plan

    The Agency offers its employees multiple deferred compensation plans, created in accordance with Internal Revenue Code Sections 401(k) and 457, which are administered and controlled by the state of South Carolina. The plans, available to all the Agency employees, permit employees to defer a portion of their salary until future years. Participation in the plans is optional. Certain employees of the Agency have elected to participate. Compensation deferred under the plans is placed in trust for the contributing employee. Great-West Retirement Services is the program administrator of the plans based on the current state contract.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 13 - Postemployment Healthcare Plan

    The Agency maintains a single-employer defined benefit plan (the "Plan") to provide certain postretirement healthcare benefits to all former regular full time employees. Healthcare coverage levels for retirees are the same as coverage provided to regular active full time employees in accordance with the terms and conditions of the South Carolina State Health Plan. The Agency contributes up to $79.3 \%$ of the monthly premium for retirees and covered dependents based on the selected healthcare plan. The amount contributed by the Agency is determined by the PEBA. This amount is based on the level of coverage selected by the retiree not the plan selected. The Agency is under no statutory or contractual obligation to provide these postretirement healthcare benefits. Because the Plan consists solely of the Agency's commitment to provide OPEB through the payment of premiums to insurance companies on behalf of its eligible retirees, no stand-alone financial report is either available or generated.

    The Agency contributes the following per retiree per month based on the level of coverage selected and not the plan selected by the retiree:

    |  | July 2015 to <br> December 2015 |  |  | January 2016 to |  |
    | :--- | ---: | ---: | :--- | :--- | ---: |
    |  |  |  | June 2016 |  |  |

    For the year ended June 30, 2016, Plan members receiving benefits paid $\$ 180,440$ which was used to offset the Agency's cash outlays to insurance carriers equaling $\$ 574,095$ for the current year premiums due. The net outlay from the Agency, which totaled $\$ 393,655$, represents the Agency's net cost paid for current year premiums due. The Plan is financed on a pay-as-you-go basis.

    The Agency's annual OPEB cost is calculated based on the annual required contribution ("ARC") of the Agency, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 13 - Postemployment Healthcare Plan, continued

    The following table shows the components of the Agency's annual OPEB cost for the years ended 2016 and 2015, the amount actually contributed to the Plan and changes in the Agency's net OPEB obligation to the Plan:
    Annual required contribution
    Interest on net OPEB obligation
    Adjustment to annual required contribution
    $\quad$ Annual OPEB cost (expense)
    Contributions made*
    $\quad$ Increase in net OPEB obligation
    Net OPEB obligation, beginning of year
    Net OPEB obligation, end of year

    | 2016 |  | 2015 |  |
    | :---: | :---: | :---: | :---: |
    | \$ | 1,145,519 | \$ | 1,144,950 |
    |  | 184,024 |  | 148,189 |
    |  | $(170,497)$ |  | $(137,296)$ |
    |  | 1,159,046 |  | 1,155,843 |
    |  | $(392,173)$ |  | $(359,502)$ |
    |  | 766,873 |  | 796,341 |
    |  | 4,089,432 |  | 3,293,091 |
    | \$ | 4,856,305 | \$ | 4,089,432 |

    The Agency's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan and the net OPEB obligation for fiscal year ended June 30, 2016 and the preceding two fiscal years were as follows:

    | Fiscal year ended |  |  | Annual OPEB cost |  | Employer amount contributed* |  | Percentage contributed |  | Net OPEB bligation |
    | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
    | June 30, 2016 | \$ | 1,145,519 | \$ | 1,159,046 | \$ | 392,173 | 33.8\% | \$ | 4,856,305 |
    | June 30, 2015 |  | 1,144,950 |  | 1,155,843 |  | 359,502 | 31.1 |  | 4,089,432 |
    | June 30, 2014 |  | 1,111,602 |  | 1,119,979 |  | 359,154 | 32.1 |  | 3,293,091 |

    *includes adjustment for implicit rate subsidy.
    As of June 30, 2014, the most recent actuarial valuation date, the Plan was not funded. The actuarial accrued liability for benefits was $\$ 12,325,758$, resulting in an unfunded actuarial accrued liability ("UAAL") of $\$ 12,325,758$. The covered payroll, which is the annual payroll of active employees covered by the Plan, was $\$ 12,109,581$, and the ratio of the UAAL to the covered payroll was $101.8 \%$.

    The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. However, because the Agency maintains no Plan assets, information relative to Plan asset required disclosure is not applicable.

    The Projected Unit Credit actuarial cost method is used to calculate the GASB ARC for the Agency's retiree healthcare plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The projected unit credit method then provides for a systematic funding for these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

    # Renewable Water Resources <br> Notes to Financial Statements <br> For the Years Ended June 30, 2016 and 2015 

    ## Note 13 - Postemployment Healthcare Plan, continued

    Projections of health benefits are based on the Plan as understood by the Agency and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the Agency and its employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:
    Investment rate of return
    Actuarial cost method
    Amortization method
    Amortization period
    Payroll growth
    Inflation
    Medical trend
    4.5\% of annum, net of expenses

    Projected Unit Credit Cost Method
    Level as a percentage of employee payroll
    Open 30-year period
    3.0\% per annum
    3.0\% per annum

    Initial rate of $6.0 \%$ declining to an ultimate rate of $4.5 \%$ after 9 years

    Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the ARC of the Agency's retiree healthcare plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

    ## Note 14 - Commitments

    The Agency has contracted with eight local water utilities which have common customers to provide billing and collection functions. The most significant is with the Commissioners of the Public Works of the City of Greenville, South Carolina. The fee charged is subject to adjustment annually based upon experience. The cost to the Agency for the year ended June 30, 2016 was $\$ 2.1$ million, which is included in administrative finance expenses on the accompanying Statements of Revenues, Expenses and Changes in Net Position. For the year ending June 30, 2017, billing charges to the Agency are estimated to cost approximately $\$ 2.4$ million.

    ## Note 15 - Contingencies

    The Agency is from time-to-time subject to various claims, legal actions and other matters arising out of the normal conduct of the Agency's operations. In particular, the Agency is regularly involved in lawsuits related to acquiring rights-of-way for its use, which requires a determination of amounts of just compensation to be paid to the owners. Based on prior experience and available information, the Agency does not anticipate any lawsuits to be material to the basic financial statements.

    ## Renewable Water Resources

    Notes to Financial Statements

    For the Years Ended June 30, 2016 and 2015

    ## Note 16 - Risk Management

    The Agency is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Agency maintains insurance coverage through the State of South Carolina, and has effectively managed risk through various employee education and prevention programs. No significant reductions in insurance coverage have occurred from the prior year to the current year. The amount of settlements has not exceeded insurance coverage for the years ended June 30, 2016 and 2015. The Agency believes the amount of actual or potential claims as of June 30, 2016 will not materially affect the financial condition of the Agency.

    ## Note 17 - Subsequent Events

    During July and August 2016, the Agency executed two contracts approximating $\$ 0.2$ million for equipment purchases.

    Effective July 1, 2016, the Agency has changed its fiscal year end from June $30^{\text {th }}$ to December $31^{\text {st }}$. The Agency will prepare financial statements and provide an audit of the six-month period July 1, 2016 to December 31, 2016.

    ## Statistical Section

    This part of the Agency's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information say about the Agency's overall financial health.

    ## Contents

    Financial Trends - These schedules contain trend information to help the reader understand how the Agency's financial performance and well-being have changed over time.

    Revenue Capacity - This schedule contains information to help the reader assess the Agency's most significant local revenue sources.

    Debt Capacity - These schedules present information to help the reader assess the affordability of the Agency's current levels of outstanding debt and the ability to manage debt in the future.

    Demographic and Economic Information - These schedules offer demographic and economic indicators to help the reader understand the environment in which the Agency operates.

    Operating Information - These schedules contain service and infrastructure data to help the reader understand how the financial report relates to the services the Authority provides.
