

### **Be Freshwater Friendly Involvement in Greenville Events**

Our Be Freshwater Friendly campaign has been very involved in the community over the past few months! We have attended the Saturday market in downtown Greenville, as well as many Earth Day events in the Upstate. We are delighted to be involved with the local community and encourage everyday actions that can have a great impact on our local environment!

### **New Piedmont Regional Facility is Now Open**

ReWa hosted a tour of our newest facility, Piedmont Regional Water Resource Recovery Facility, for the general public on June 1<sup>st</sup>. With a permitted capacity of 4.0 million gallons per day, Piedmont Regional will support growth and economic development in the Piedmont and Powdersville areas for years to come. The Piedmont Regional Facility uses the most advanced technologies in the water treatment process to produce a high class effluent. ReWa will regularly offer facility tours as part of its public education program. The tours are designed to increase community awareness about ReWa's services and how the community can participate in protecting our area's valuable aquatic resources. ### **Sixth Drug Take-Back Event Yields 778 Lbs of Medication**

Project Rx: A River Remedy, our community-driven medication collection event, held its sixth event collecting 778 lbs of medication from Upstate residents. The event was held in conjunction with the U.S. Drug Enforcement Administration's (DEA) National Drug Take-Back Day, which was at 16 additional locations across the Upstate. All together the sites collected a total of 1,491 lbs of medication! For more information, visit our [website](#).
