

Addendum II Reedy River Basin Sewer Tunnel RFQ

Posting Date: June 6, 2017

In published Request for Qualifications (RFQ) Reedy River Basin Sewer Tunnel, please note the following update:

1. **Q:** On page 9 of the Request for Qualification in the Qualification Application Form it states, “enclose with the prequalification application a separate written description of the proposed project approach. This shall include a description of the general tasks required to fulfill a project of this type and magnitude as well as the Contractor’s approach to completing those tasks in a timely and efficient manner.” Writing a project approach requires significantly more information than is currently available in the RFQ. Are you looking for a general answer or something project specific? .

**A:** Delete the second full paragraph from page 9 of the RFQ in its entirety.

~~Enclose with the prequalification application a separate written description of the proposed project approach. This shall include a description of the general tasks required to fulfill a project of this type and magnitude as well as the Contractor’s approach to completing those tasks in a timely and efficient manner.~~
