

Addendum I Mauldin Road WRRF Metal Storage Building Project

Posting Date: February 18, 2019

In published Request for Bid (RFB) for Metal Storage Building project, please note the following updates:

New Bid Opening date: February 28, 2019 at 2:30pm

1. **Q:** Is it your intention for the contractor to remove and replace the existing pad and foundation? Or do you want the existing pad and foundation to be used? If you want it to be used, can you provide drawings for the existing building column footings?
A: There are no footings on the existing slab on grade, which is approximately 8 inches thick. The intent is to reuse it as a floor. Therefore, Bidder will need to install appropriate footings that may be needed for his building's design.
2. **Q:** In the technical specifications, R-19 insulation is specified for the walls and R-20 insulation is specified for the ceiling. Did you mean for that to be R-30 insulation in the ceiling?
A: Yes, please use R-30 in lieu of R-20.
3. **Q:** Can I visit the site to measure the existing building pad?
A: Yes, site visits can be scheduled with the contact below.
4. **Q:** The earliest I can get pricing for my quote is next Friday 2/22/19 and the bid opening is on Thursday 2/21/19, can the date be extended?
A: Bids will now be due not later than 2/28/19 at 2:30pm
5. **All Lighting fixtures shall be LED.**
6. **No natural gas is available for this project.**
7. **Bidder shall furnish and install an additional overhead door, for a total of three, that shall be equally spaced apart.**

If you have any questions and/or concerns, please do not hesitate to contact Stephanie Selman stephanies@re-wa.org or Julie Dacus at julied@re-wa.org.
